SAFETY FAST

When speed and convenience are paramount

UNLADEN WEIGHT **200 Lbs**
WEIGHT FULLY CHARGED **250 Lbs**
HOSE **200 ft 1" Diameter**
REEL SIZE **32 In**
WIDTH **48 In**
HEIGHT **34-44" depending on config**
DEPTH **18 In**

USER CENTERED DESIGN

When you combine the **experience** and **knowledge** of 30 year Journeymen with **disciplined industrial designers** and utilize the **latest technologies** in machining and fabrication, you get remarkable products that literally **save lives** while improving them.

Our Fire Hose Reel employs all the features that satisfy the latest code recommendations while significantly improving usability.

Our system safely and efficiently manages the deployment of 200 feet of 1" diameter, fully charged, hose like no other on the market. Our large rollers guide the hose easily and quickly release the hose to switch sides, allowing 360 degrees of fire fighting capability. We've invented a simple tensioning brake to eliminate sloppy hose tangles. The large handle allows a mechanical advantage for comfortable and efficient retraction. We've selected the best materials and bearings to get the job done for years.

The advantages are too many to list here. Find out yourself and order yours today. Your crew will thank you!

MADE IN

FASTER FIRE SUPPRESSION

Co-Created with Lineworkers for Lineworkers

VERSATILITY & FLEXIBILITY

Rapid configuration

Designed for ease of mounting to a variety of water trailer models like Wyle and MultiQuip.

EFFICIENCY/ ERGONOMICS

Expedite Safety Large rollers with quick release levers on both sides allow 360 degrees of rapid deployment. Our braking system eliminates unwanted hose tangles. The large wind up handle efficiently recoils hose easily at the end of a long day.
