

# HOT END PLATFORM SUPPORT

Steel Tube Frame with Machined billet steel components.

## 1 Frame

Engineered geometry for max strength.  
1.5" OD Steel Tubes.  
Carefully balanced steel for safer flying.  
Sizes for 28" or 32" Platforms.  
Rounded steel shapes minimize galling of wires.

## 2 Rollers

UHMW Plastic  
1/2" steel rod axle  
Shaft collars

## 3 Pivot Mounts

Welded and Bolted  
CNC Billet Steel  
180° Pivot on a 1" Rod

## 4 Identity Placard

Traceable serial number, PN, Info.

## 5 Safety Chain

Rapid Hook release  
High Strength Grade 40-43

## 6 Fold Stop Bar

Rests on platform when folded down and distributes load.

## WORKING LOAD LIMIT:

2,000 Lbs  
[TESTED BY 3RD PARTY]

## Total Weight:

82 Lbs

## THE META ADVANTAGE

Co-Created with Lineworkers for Lineworkers

### VERSATILITY & FLEXIBILITY

**Custom configuration** made easy. We know every job is different and adjustability is essential, so we design the most configurable products to meet your needs.

### EFFICIENCY/ ERGONOMICS

**Expedite projects** by quickly adjusting to dimensions to your needs. We carefully consider the end user in all of our product details, utilizing the latest interactive ergonomics and human factors.

### DURABILITY

**Engineered for the task** and tested by lineworkers onsite, all our products can take the abuse of the most demanding projects. We manufacture our own machined billet components and utilize a talented fabrication team of Certified Welders.

### SAFETY

**Personnel safety** is critical and we demand stringent product testing to ensure line worker security to minimize incidents. We are a Utility Company Approved vendor.
